Technological cooperation opportunities with Virginia (USA): collaboration and soft-landing programs

The main goal of the Webinar is to guide companies interested in engaging in technology collaboration with the United States. The event will start with a brief exposition of the internationalization and implantation services available in the USA. Afterwards, the different opportunities for technological collaboration and soft-landing in Virginia will be presented, and finally, CDTI's USA technology collaboration programs will be exposed.

At the end, bilateral meetings will be held between the speakers and the entities that have previously requested it, to present project ideas.
