# Community of Users for Research and Innovation for Europe (CERIS)

Like the CoU, CERIS brings together academia, research institutes, public authorities, practitioners and industry, via **four thematic areas**:

- 1) Fighting crime & terrorism, incl. infrastructure
- 2) Disaster resilient societies
- 3) Border management
- 4) Strengthened security research and innovation

European Commission in the lead, supported by **CERIS expert group**.

## CERIS - Community for European Research and Innovation for Security

Aiming to facilitate interactions within the security research community and users of research outputs, in 2014 the Commission established the Community of Users for Safe, Secure and Resilient Societies (CoU), which gathered around 1,500 registered stakeholders (policy makers, end-users, academia, industry and civil society) and regularly held thematic events with the security research community. Now named the **Community for European Research and Innovation for Security (CERIS)**, this platform continues and expands the work of the CoU, in light of the forthcoming Horizon Europe developments between 2021-2027.

### The objectives of CERIS are to

- analyse identified capability needs and gaps in the corresponding areas
- identify solutions available to address the gaps
