EXCEPCIÓN AL CASO GENERAL → SÓLO ESTADOS MIEMBROS

HORIZON-CL3-2022-CS-01-03: Transition towards Quantum-Resistant Cryptography

Specific conditions	
<i>Expected EU contribution per project</i>	The Commission estimates that an EU contribution of between EUR 3.50 and 6.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<i>Indicative budget</i>	The total indicative budget for the topic is EUR 11.00 million.
<i>Type of Action</i>	Innovation Actions
<i>Eligibility conditions</i>	<p>The conditions are described in General Annex B. The following exceptions apply:</p> <p>In order to achieve the expected outcomes, and safeguard the Union's strategic assets, interests, autonomy, or security, namely cybersecurity in the field of Quantum-Resistant Cryptography, participation is limited to legal entities established in Member States and associated countries. Proposals including legal entities which are not established in these countries will be ineligible.</p> <p>Some activities, resulting from this topic, may involve using classified background and/or producing of security sensitive results (EUCI and SEN). Please refer to the related provisions in section B Security — EU classified and sensitive information of the General Annexes.</p>

Eligibility - Specific situation of UK

- When allowed by the Horizon Europe Regulation and other rules pertaining to the implementation of the programme, entities from non-associated third countries are eligible to participate in Horizon Europe projects without receiving funding.
- In practice, this means that in most cases UK entities will be able to continue cooperation within Horizon Europe research consortia. However, funding from the Union budget would normally not be available for UK partners, and they would need to obtain their funding from other sources until the UK is associated.

Y ADEMÁS..... CONDICIONES DE ELEGIBILIDAD ESPECÍFICAS DEL TOPIC

Additional eligibility conditions 1/3

The **participation of practitioners** (or other categories of participants) is a **mandatory** criterion in Calls **FCT, DRS, BM, INFRA, SSRI**, with the exception of two topics in SSRI (SSRI-01 and SSRI-04).

Pay attention – where applicable – to the detailed footnotes:

“In the context of this Destination, ‘Police Authorities’ means public authorities explicitly designated by national law, or other entities legally mandated by the competent national authority, for the prevention, detection and/or investigation of terrorist offences or other criminal offences, specifically excluding police academies, forensic institutes, training facilities as well as border and customs authorities.”

NB: on average 7-10% of applicants fail to properly address these conditions

Topic conditions and documents

General conditions

1. Admissibility conditions: described in Annex A and Annex E of the Horizon Europe Work Programme General Annexes

Proposal page limits and layout: described in Part B of the Application Form available in the Submission System

2. Eligible countries: described in Annex B of the Work Programme General Annexes

A number of non-EU/non-Associated Countries that are not automatically eligible for funding have made specific provisions for making funding available for their participants in Horizon Europe projects. See the information in the Horizon Programme Guide.

3. Other eligibility conditions: described in Annex B of the Work Programme General Annexes

The following additional eligibility conditions apply:

This topic requires the active involvement, as beneficiaries, of each of the following types of organisation:

- organisations representing citizens or communities;
- and organisations representing practitioners (first and/or second responders);
- as well as local or regional authorities;
- and private sector entities.

For all the participants above, applicants must fill in the table “Eligibility information about practitioners” in the application form with all the requested information, following the template provided in the submission IT tool.

RECOMENDACIONES RELACIONADAS CON LAS ADDITIONAL ELEGIBILITY CONDITIONS

Advice & lessons learned:

- Ensure that the beneficiary really meets the criteria e.g. a **scientific/academic organization or a training facility on Disaster Management is not a First Responder** (idem for Police Authorities, Civil Society Organisations, Customs, Border guards etc.)
- Ensure that the minimum number and type of countries and that all categories are covered e.g. "[...] at least **2 Police Authorities** and at least **2 forensic institutes** from at least **3 different EU Member States or Associated countries**"
- Ensure that the right level of beneficiaries is represented, e.g. "[...] at least **3 government entities** responsible for security, [...], at **national level**."
- Different departments/services of the same entity/organisation cannot fulfil two criteria, e.g. Law Enforcement Agency & First Responder

NOVEDADES EN LA NUEVA VERSION DE TEMPLATE (Vs 2021)

Points in the **impact section have been re-organised.** → se han **intercambiado** secciones (b) y (c) de 2021

- (b) Give an indication of the scale and significance of the project's contribution to the expected outcomes and impacts, should the project be successful. Provide quantified estimates where possible and meaningful.

⚠ *'Scale' refers to how widespread the outcomes and impacts are likely to be. For example, in terms of the size of the target group, or the proportion of that group, that should benefit over time; 'Significance' refers to the importance, or value, of those benefits. For example, number of additional healthy life years; efficiency savings in energy supply.*

⚠ *Explain your baselines, benchmarks and assumptions used for those estimates. Wherever possible, quantify your estimation of the effects that you expect from your project. Explain assumptions that you make, referring for example to any relevant studies or statistics. Where appropriate, try to use only one methodology for calculating your estimates: not different methodologies for each partner, region or country (the extrapolation should preferably be prepared by one partner).*

⚠ *Your estimate must relate to this project only - the effect of other initiatives should not be taken into account.*

- (c) Describe any requirements and potential barriers - arising from factors beyond the scope and duration of the project - that may determine whether the desired outcomes and impacts are achieved. These may include, for example, other R&I work within and beyond Horizon Europe; regulatory environment; targeted markets; user behaviour. Indicate if these factors might evolve over time. Describe any mitigating measures you propose, within or beyond your project, that could be needed should your assumptions prove to be wrong, or to address identified barriers.

⚠ *Note that this does not include the critical risks inherent to the management of the project itself, which should be described below under 'Implementation'.*
