

Q&A ACHIEVING RAIL DECARBONISATION 2022

14 SEPTEMBER 2022

Ahead of Achieving Rail Decarbonisation event in 14 September 2022, **Craig Hales of Skanska UK** shared his views on some of the barriers facing decarbonisation.

CRAIG HALES

SECTOR SUSTAINABILITY MANAGER (RAIL)
SKANSKA UK

WHAT ARE THE CURRENT BIGGEST CHALLENGES TO DELIVERING DECARBONISATION OF THE RAIL NETWORK?

The biggest challenge is the ability to provide zero emission to the running of the trains and then to electrify the rest of the network without inversely impacting the environment and lineside communities.

HOW MIGHT PROPOSED RAIL REFORMS IMPACT THE DECARBONISATION AGENDA?

Funding uncertainties and change in leadership could undo policies that don't fit the immediate political agenda.

WHAT CAN THE RAIL SECTOR WORK IN COLLABORATION TO DELIVER DECARBONISATION?

The rail sector needs to be more proactively aligned to energy producers and be a bigger influencer in bringing the construction supply chain together

Hear more from Craig Hales at the event where he'll expand on these ideas
